Subject: Re: tomorrow's dry run for remedial options workgroup---can I attend?

I think there's no need, because there will be no modeling presentation. If you go to the Remedial Options WG meeting, you'll hear the other presentations there - no need to hear it twice.

Aren't you working on the CSO sampling plan?

If you really have a burning desire to hear the dry runs, they are tomorrow (6/20) at 10am-12noon (call in **Not responsive** Following is what the agenda for the Remedial Options WG is. So we'll hear dry runs for the overview, CSM/EMBM, risk and engineering.

Welcome/Intro (Alice) 10 min
Overview/approach/presentation of alternatives (Scott): 15 min
CSM/EMBM (Ed): 25 min
Risk (Battelle): 25 min
Break / Q&A: 30 min
Engineering/Costs/Comparison/Summary (Scott): 45 min
Q&A: 30 min

Subject tomorrow's dry run for remedial options workgroup---can I attend?

Can I go to the dry run for the remedial options workgroup? I'd like to see the presentation before the meeting next week. Where is it and at what time?
